

Remarks

The Examiner suggested guidelines for the arrangement of the specification. In following the Examiner's suggestion the Applicant submits a substitute specification filed under 37 CFR 1.125(b). The substitute specification contains no new matter. The Applicant has only added the headings suggested by the Examiner. The Applicant submits a Substitute Specification in clean form without markings as to amended material and a marked up version of substitute specification showing all the changes, including the matter being added to and matter being deleted from, to the specification of record.

After entry of the present amendment, Claims 1-7 are pending and Claims 8 and 14-18 have been cancelled without prejudice.

The Examiner in the Office Action of May 5, 2003, the Examiner indicated that claims 1-7 are allowed. Since all rejected claims have been cancelled, the application is in condition for allowance.

In view of the foregoing, Applicants respectfully requests the passage of the application to issue. If there are any other matters that need to be addressed prior to allowance, please call the undersigned at the telephone number recited below for a telephone disposition. The Commissioner is hereby authorized to charge any additional fees which may be required in this application to Deposit Account No. 06-1135. In the case of overpayment, please credit the same account.

Respectfully submitted
